**REQUEST FOR AWARD OF PRIORITY MAILING DATE
AS THE APPLICATION FILING DATE DUE TO POSTAL EMERGENCY**

Sir:

The above-identified application was refused by the United States Post Office for delivery to the United States Patent and Trademark Office (USPTO) by Express Mail on November 16, 2001. This refusal stemmed from the temporary suspension of Express Mail delivery to certain Washington, D.C. ZIP codes, including the 20231 ZIP code associated with the USPTO.

In accordance with guidance from the USPTO, the application paperwork was mailed using priority mailing procedures on November 16, 2001. The application paperwork as submitted included the Express Mail Label Number that would have been used. A signed statement by the employee who attempted the express mailing is attached herewith, and a copy of original Express Mail certificate and the returned postcard are enclosed.

The filing receipt (copy enclosed) indicates that the application was assigned the filing date of **December 5, 2001**. This date should be changed to **November 16, 2001**, the attempted date of express mailing. No formal petition or fees should be required for this change of filing date because of the declared postal emergency. However, if a petition is required, please consider this letter as such, and the Commissioner is hereby authorized to charge any required fees to Deposit Account 18-1167.

Receipt date
granted is
11/16/01.

STATEMENT BY ROBIN GOSS RE: REFUSAL OF EXPRESS MAIL

I, Robin Goss, attempted to mail an application for United States Patent entitled "DTX Detection Method with High Success Probability," and now assigned Application Ser. No. 10/002,722, on November 16, 2001, using the Express Mail "Post Office to Addressee" procedures provided for by 37 C.F.R. § 1.10. The Express Mailing Label No. used was "EV 014468805 US." The Express Mail envelope was refused by the United States Post Office located at 150 Wrenn Dr, Cary, NC 27511.

This refusal stemmed from the temporary suspension of Express Mail service to Washington, D.C., ZIP codes 202xx through 205xx, which suspension began on November 16, 2001, under authority of the Chief Operating Officer of the United States Postal Service.

Because of the Post Office's refusal to accept the application as Express Mail, I deposited the complete application paperwork for the above-identified application as priority mail on that same day, November 16, 2001.

I hereby declare that all statements made herein of my knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under §1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

LICENSE FOR FOREIGN FILING UNDER

Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
